

## ECLERNET TOUCH-SCREEN WALL PANEL

TOUCH SENSITIVE

WPmSCREEN is a remote control panel compatible with all the EclerNet products, like MIM088, and NXA series. It features a 7" touch-screen and an integrated UCP (User Control Panel) client and server hardware: no computer is required to run an EclerNet project and become a UCP webserver, once one or more WPmSCREEN units are installed in an EclerNet project. Each unit can be configured by means of the UCP control system as a local zone control or as a global control, as they are totally compatible with the standard UCP panels architecture, and also with third-party UCP clients (iOS®, Android®, Windows®, etc.).

WPmSCREEN includes a surface mount installation box, and is as well compatible with standard recessed boxes and the VESA75 mount system.

### Applications

Remote control for installations including EclerNet devices:

- Direct control of MIM088, NXA, NZA, etc. devices (EclerNet devices), point to point (direct CAT5 cable, no network involved)
- Network control of a full EclerNet installation, including several MIM088, NXA and/or other EclerNet devices
- Centralized, distributed or hybrid fixed installation
- BGM & Paging solutions, with message priorities and source/volume independent selection
- Integration in installation global control systems

Power Supply and Ethernet connections

### Technical Characteristics

### WPmSCREEN

		WPmSCREEN
SCREEN	Display technology	a-Si TFT active matrix
	Size	7" (diagonal)
	Resolution	800x480
	Color	24-bits RGB
	Contrast ratio	500:1
	Touch panel	4 wire Resistive. Can be operated with finger or stylus
	Active area	154 x 86 mm.
	Backlight	LED
CONNECTIVITY	Ethernet port	Ethernet Base-Tx 10/100Mb Auto X-Over CAT5 up to 100m.
	Supply voltage	24V DC
POWER	DC current (max)	150mA
	AC power adapter	90-264VAC 47-63Hz
	Mains power consumption	5W
GENERAL	Bracket mounting holes	VESA 75mm
	Dimensions WxHxD	216x159x36mm
	Weight	550g
	Flush-mount cavity	200 x 140 x 50 mm (for SIMON 51020103-039 or equivalent box, not included)
