8X1 TWISTED PAIR SWITCHER

SPECYFIKACJA TECHNICZNA

INPUT: 8 x RJ45 CAT-5 ports.

OUTPUTS: 1 x RJ45 CAT-5 port.

BANDWIDTH (-3DB): 3 Gbits/sec.

CONTROL: 9 illuminated front-panel touch switches, RS-232, RS-

485, contact closure, Ethernet, IR

POWER SOURCE: 8 Watts (maximum) 90-240V AC. DIMENSIONS: 19-inch (W), 7-inch (D), 1U (H).

WEIGHT: 2.5kg (5.5lbs) approx.

ACCESSORIES: Power cord.

OPIS

The VS-81ETH is a bi-directional switcher for analog or digital signals on twisted pair cable. It will switch any one of 8 inputs to a single output.

- Bandwidth 3 Gbits/sec Dual Link
- System Range (CAT 5) Up to 100 meters (300').
- Twisted Pair Connectors RJ-45 connectors.
- Cable (Twisted Pair) UTP (unshielded twisted pair) such as CAT 5.
- Control Front panel, RS-232 (included K-Router™ Window® software), RS-485, Ethernet, contact closure & IR Remote (included).
- Standard 19" Rack Mount Size 1U.
