4K Integrated Camera For Indoor Use

The UE50/40 are lightweight and compact. The new direct-drive motor with an operating sound of NC25 or lower

Small size, quietness and stability for use anywhere.

achieves highly accurate stopping position precision and enables accurate camerawork. They can be installed and used at any video shooting site. The UE50/40 supports NDI® | HX\*1 and SRT\*2 to assure stable and safe video streaming.

In this instance, NDI® is used to indicate low latency with high bandwidth NDI®,NDI® | HX is used to indicate high efficiency low bandwidth NDI® | HX. In the NDI® | HX mode, 4K video signals cannot be output. AW-UE50/AW-UE40 supports NDI® | HX version 2 and Full HD output. Abbreviation for Secure Reliable Transport

Excellent system flexibility to achieve smart wiring and smooth operation.

By using a Panasonic remote camera controller or linking with available software, the camera can be easily installed, managed and operated. The UE50/40 are suitable for replacing an existing camera or for expanding your current system.

## Invaluable features and functions to deliver flexibility to any video shooting needs

# Supports SRT\* to ensure stable video streaming

SRTALLIANCE

The UE50/40 supports SRT, a next-generation video transport protocol that provides robust security and works well, even with an unstable network environment.

\*Abbreviation for Secure Reliable Transport

#### Use in online conferences as web camera

The UE50/40 supports UVC\* so the video and audio signals can be transmitted over USB. By using the PTZ Virtual USB Driver software and connecting with a LAN cable, it is possible to use the UE50/40 as a USB camera. This can also be linked with Panopto.

\*UVC: USB video class

A standard for connecting video-handling devices such as webcams to a computer via USB.

### **Supports 4 interfaces**

The UE50/40 supports four output interfaces—3G-SDI\*, HDMI, IP and USB—so it can be used with a wide range of devices.

AW-UE40

#### Supports NDI® | HX version 2

The UE50/40 realizes effective IP transmission of high-quality videos even with limited bandwidth. Since the video source can be accessed from any device on the same network, even devices with unknown IP addresses are automatically recognized.

\*NDI\* is a new IP protocol developed by NewTek, Inc. This protocol supports live video

\*NDI\* is a registered trademark of NewTek, Inc. in the United States.

### Single controller\* can control up to 200 camera units

By using the free software, PTZ Control Center, or connecting a Panasonic remote camera controller, multiple remote camera units can be controlled at once from the single controller for easy management and control.

\*This function can be used only with Panasonic PTZ camera controllers AW-RP150 and AW-RP60.

#### Other features

- Unit design makes the lens unnoticeable
- Equipped with Privacy Mode which positions the lens toward the back when on standby
- Equipped with Optical Image Stabilizer (OIS)
- Web GUI for camera control

#### **Accessories**

Remote Camera Controller

AW-RP150

High operability ensured through touch-panel GUI monitor and a new type of joystick.

Remote Camera Controller

AW-RP60

Equipped with a GUI menu screen for clear visibility and a joystick for intuitive control.

Auto Tracking Software Key

AW-SF100/AW-SF200

Face recognition and human body detection for high precision and smooth tracking control for natural-looking video.

Visual Preset Software Key **AW-SF300** 

GUI screen that enables the subject of multiple PTZ Cameras to be switched with a single click of an icon.
