

CONCEPT1T-KIT

Transform kit for Concept1

The CONCEPT1T-KIT allows you to convert a low impedance CONCEPT1 into a 100V amplifier. The kit contains 2 transformers and fixation screws.

The circuit board of the unit has been pre-equipped to accommodate the transformers, so the conversion is a quick, hassle-free operation.

Thanks to this conversion kit, CONCEPT1 is a very versatile amplifier that can be used in both low-impedance and 100 V situations. Apart products have been designed with installer's ease in mind!
